

Hypericum Hypearls™ Series

Hypearls™ Jacqueline

Hypearls™ Jessica

Hypearls™ Olivia

Hypearls™ Renu

Keep sales growing with these colorful perennials.

- Unique perennial shrubs for the landscape or container
- Four different berry colors: cream, red, salmon and pink
- Heat-loving plants with well-branched, vigorous foliage
- In the garden, bright yellow flowers and berries continue into fall
- In a container, attractive pots with showy berries for August sales
- No vernalization required
- Hardy to Zone 5

Available unrooted, or in 128 and 72-cell liners

Hypearls™ Jacqueline - 28". Pointed berries start out as yellow-orange and age to deep red. Vigorous green foliage and small yellow flowers begin in July.

Hypearls™ Jessica - 25". Round, cream-colored berries and deep green foliage. Bright gold flowers with showy stamens in summer.

Hypearls™ Olivia - 36". Berry color starts out yellow then matures to salmon over time. Yellow flowers in July attract bees.

Hypearls™ Renu - 30". Round berries begin cream and mature to bright pink. Foliage has a red tint to new growth.

Production Schedule

Plant 2 to 3 liners per 1-gallon or 8-inch pot and 3 to 4 liners per 10 inch or 2-gallon pot in spring.

Vernalization: Not required for flowering or berry set. Flowers and berries occur on new wood.

Fertilizer: While actively growing, provide a constant liquid feed 150 ppm nitrogen. Cut feed off when plants begin to show berry color.

Temperature: Grow outdoors with temperatures above 60°F (16°C).

Pinching/Shearing: Requires at least one shearing prior to July 1. Multiple shearings will provide more branching and more berries.

Flowering: Plants will flower in July and berries will set soon after.

Height at flowering: 14 to 18 inches in containers depending on variety.

For more details and to learn more about the *Hypericum* Hypearls™ Series, see Technical Guides at GLplants.com or contact Green Leaf Plants Customer Service at 800.321.9573.
