BLOOMS
of Bressingham

Anemone hupehensis

Pretty Lady Series

Reliable and sturdy performers offering a big improvement in garden and container performance over older, taller varieties.

- Excellent dwarf habit – naturally compact
- Amazing flower power in fall with showy masses of large 2-inch blooms
- Vernalization not required – plant in June for flowering plants in late September
- Easy to grow with no pinching or maintenance required

‘Pretty Lady Diana’ (USPPAF) – single pink flowers (pictured center)

‘Pretty Lady Emily’ (USPPAF) – double light pink flowers (pictured left)

‘Pretty Lady Susan’ (USPPAF) – single pink flowers (pictured right)

'Pretty Lady Diana' (USPPAF)

Full sun to part shade. USDA Hardiness Zones 5 to 9; AHS Heat Zones 9 to 1. In the garden, plants grow to 16 inches (41 cm) tall and 20 inches (51 cm) wide. Flowering height in containers is 18 inches (46 cm) tall for 'Pretty Lady Diana' and 'Pretty Lady Emily', 12 inches (30 cm) tall for 'Pretty Lady Susan'. Prefers moist soils and will not tolerate long periods of dryness. Provide extra shade in very warm climates.

Grower Tips:

Keep plants moist and not allow them to wilt. Fertilize with 100 to 150 ppm nitrogen constant liquid feed. Vernalization is not required for flowering. Unvernalized liners planted in late May or early June flower in late September to October. Grow outdoors in full sun (part shade in very warm climates) on drip irrigation for best results.
